SUMMARY

Full Stack Developer with experience in building responsive, high-performance web applications using modern frontend and backend technologies. Skilled in developing scalable RESTful APIs, designing and integrating databases, and creating clean, maintainable, and production-ready solutions. Focused on performance optimization, user-centric design, and leveraging AI-powered tools to improve development efficiency in collaborative environments.

WORK EXPERIENCE

Frontend Developer, Misk Perfume (Freelance Project) 03/2026 – 05/2026 | Remote

- Developed a high-performance luxury fragrance e-commerce platform using Next.js, React, and Tailwind CSS
- Crafted smooth, modern UI animations and interactions using Framer Motion to enhance user experience
- Implemented seamless bilingual localization (Arabic & English) using next-intl
- Developed a comprehensive admin dashboard to manage product catalogs, categories, orders, promotional banners, and store configurations

Frontend Developer, cumulocode (Freelance Project) 10/2025 – 11/2025 | Remote

- Enhanced the UI/UX of an existing web application using Next.js and Tailwind CSS
- Implemented Dark Mode and multi-language support (English) to improve user experience
- Ensured responsive design and cross-browser compatibility across the platform
- Collaborated within an existing codebase to deliver clean, maintainable, and high-quality updates
